No. 77

THE CONSTITUTIONAL AMENDMENTS TO BE VOTED ON TUESDAY NEXT

What they Are and what they Are Supposed to Do—Helps
for Voters

SENATE AMENDMENT NO. 1.
A very important change in the method of levying taxes. The principal object is to lessen the burden upon realty and increase the collections from personal property. All taxes upon railroads, car companies, express, telegraph, insurance companies and banks, to be taxed for aid by the state only. The proposed change would, it is claimed, reduce taxes materially as a whole, but is open to the serious objection that municipalities would be deprived of income now derived from taxes upon such corporations for municipal purposes.

Senate Amendment No. 14.
Proposes to increase salaries of state officers: governor from \$6000 to \$10,000; lieutenant governor to \$4000, etc. Limits office expenses to \$1800 for any one employee, per year.

Senate Amendment No. 16.
A very important measure. Provides that bills shall not be introduced in either house of legislature, forty days after beginning of session, without consent of two-thirds of members. Legislators to receive \$1000 per member for term (now receive \$480). Limits sum to be paid for attaches to \$500 per day in each house. Statement by state comptroller shows that this limitation would have saved in the last legislative session \$75,516.72.

Senate Amendment No. 26.
Provides that mortgages, trust deeds, etc., shall be assessed to holder, the owner of the property conveyed by such evidence of indebtedness shall be assessed for the value of the property, less the indebtedness. Approved by County Assessor Hopkins and State Assessors' association.

Senate Amendment No. 31.
To permit extension of the life of corporations now existing for a further period of fifty years. Affects the old established banks whose corporate existence will end in a few years.

Senate Amendment No. 32.
Proposes a new section to constitution limiting employment of help in houses of legislature; similar to last clause of Amendment No. 16.

Senate Amendment No. 33.
Fixes liability of stockholders practically as at present, but makes directors responsible to stockholders for money embezzled or misappropriated.

Senate Amendment No. 34.
Legislature shall not have power to authorize lotteries; shall pass laws to prohibit fictitious buying and selling of shares of stock in any corporation.

Assembly Amendment No. 3.
Direct primary law. Does away with nominating conventions. Electors to vote directly at primaries for names to be put on their party tickets.

Assembly Amendment No. 7.
Providing for general and uniform laws for election or appointment of county officials.

Assembly Amendment No. 8.
To allow kindergarten and evening schools to share in distribution of state school fund. Opposed by California Teachers' association, Woman's Federation of Clubs, State Federation of Labor and other similar organizations.

Assembly Amendment No. 24.
Changing composition of State Board of Education. Also opposed by above named civic associations. Claim made that change would be less fairly representative than at present and more under political influence.

Assembly Amendment No. 28.
Referring to governor's approval of bills: allowing him to veto them in part.

Senate Bill No. 850.
Changing seat of government from Sacramento to Berkeley. Should be voted against.

Senate Bill No. 461.
Authorizing indebtedness to the amount of two million dollars, to erect wharves, seawall, state railroad, etc., in the city of San Francisco.

Senate Bill 812, and Senate Bill 7.

An appropriate program was given, of which one of the most popular numbers proved to be a musical one given by Miss Emma Williams of North Glendale, who rendered as a piano solo an interpretation of Schumann's "Song of the Night," in such a manner that generous thanks were accorded the young player. An interesting report of the day was given on Tuesday before the home club by Mrs. Pack.

A LAST WORD BEFORE ELECTION DAY.

The Situation Up to Date.
Tuesday next is election day and probably everybody will be glad when it is over, so that business affairs may settle down and people pursue the everyday tenor of their way. The Democrats are making extravagant claims of practically everything in sight, but as this is what they never fail to do under the most depressing circumstances, it counts for nothing. In betting centers, the odds are at least four to one against Bryan. There will be reduced Republican majorities in many states, but it is doubtful if the reduction will be sufficient in any case to change the electoral vote of any Republican state.

It is generally conceded that the Prohibitionists will cast a larger vote than in 1904, when it totaled 253,205. The same may be said of the Socialists, which party cast something over 400,000 votes four years ago. It would not be surprising to see the votes of both these parties double up next Tuesday, but they will yet be as far as ever from their goal. Socialists and Independent party voters will detract greatly from Bryan's strength, while the Prohibitionists will cut most deeply into the Republicans. Los Angeles county will no doubt cast an old-time Republican vote, which means that it is likely to give that ticket the heaviest majority that any county in the state will contribute to Taft. The state is surely Republican.

Locally there is a hot contest over the supervisors'hip. The normal vote in this district is largely Republican, but several special interests are backing "Tony Schwam," and that candidate has been putting in vigorous personal work which has no doubt been more or less effectual. Ordinarily there should be no doubt as to which man, as between Schwam and Pridham, would be elected, and there would be none now in our estimation as to which should receive the votes, if the people could thoroughly understand the situation. Mr. Pridham's record shows him to be the kind of man they want on the board of supervisors and they should not be hoodwinked by the efforts of "special interests" to defeat him. The Republicans have apparently taken it for granted that the ticket would be elected, for they have allowed all the other parties to do the most of the campaign work in this section. They are to have a meeting tonight, however.

KNIGHTS OF PYTHIAS ORGANIZE.

The members of the Knights of Pythias held an enthusiastic meeting on last Wednesday evening to make arrangements for the institution of a local lodge of that organization in Glendale. A committee was appointed to lease the new hall being erected by Cole and Dick on Brand boulevard, and equipped for the Knights and will be suitable to lodges and for entertainment purposes. The Knights of Pythias need no introduction in this community, as the order is well known. The charter is now open and it is expected that the organization will be instituted with at least one hundred members. The name Miradero was selected for the new lodge. There will be another meeting next Wednesday evening, Nov. 4.

BONUS RAISED.

It is expected that the required bonus for the Third street railroad will all be paid into the Bank of Glendale, today. Under the requirements of the conveyance of rights of way, work must begin by Nov. 17th.

Tropico was the scene of one of the prettiest weddings that has taken place in this valley for some time, when on Wednesday, October 21st, in the presence of relatives and a few of the most intimate friends, Miss Electa Forrest Harding, daughter of Mrs. Isabella A. Harding, became the bride of Mr. Ray Deane Arnold of Los Angeles. The Harding home was artistically decorated with pepper boughs and berries.

The wedding party entered the parlor to the strains of Lohengrin's Wedding March and stood in the bay window beneath a large bell of pepper leaves and white asters. The bride wore dainty white and carried bridal roses. They were preceded by little Robert and Dorothy Carmack in white, who stretched the ribbons.

Mrs. C. L. Peckham, a prominent soloist of this valley, sang "The Sweetest Story Ever Told." Rev. E. E. Fullmer, of Los Angeles, officiated and Mr. George S. Graves played the wedding march.

Mr. and Mrs. Arnold will spend some time with Mr. Arnold's relatives in Los Angeles, and will be at home to their friends after December 1st, in Tropico, Calif.

CHAPTER L CONVENES.

Mrs. J. G. Hunchberger of Fifth street, on Monday entertained Chapter L. P. E. O. The topic was "Our President," presented under the chairmanship of Mrs. H. P. Smith. Papers on the various phases of the life of President Roosevelt were given by Mrs. Smith, Mrs. Byrkit, Mrs. Russell, and Miss Ruth Byram. Discussion of current events brought to notice a number of interesting affairs. The next meeting will probably be held at the home of Mrs. Lee.

HALLOWE'EN DANCING PARTY.

Mrs. Peckham's dancing class will give a Halloween party at Logan's hall on Saturday evening, Oct. 31st, from 6:30 to 9 o'clock. Parents and friends are invited as spectators.

Mr. Samuel Gompers has declared that he does not want a place in Bryan's cabinet. Gen. Harrison Gray Otis announces that he would not accept a place in Taft's. These important details being settled, we can now go ahead with the voting.

A Quiet Campaign

It is a fact universally remarked that the present presidential campaign is the quietest we have had within the memory of the present generation of voters. There are various reasons for this, the most obvious one being the fact that the result is regarded generally as a foregone conclusion. If the issue was generally received as being in doubt, there would be greater exertions made by both parties.

Another fact that has made the present contest rather tame is the decency with which it has so far been carried on. The private characters of Mr. Taft and Mr. Bryan are generally admitted to be above reproach and no personal attack has been made upon either of them. The nearest approach to it that we have noticed was in the California Voice, the Los Angeles organ of the Prohibition party, that has devoted a good many of its more or less valuable pages to an endeavor to show that Mr. Taft has some sort of a record in the Philippines which none but a dishonest man could acquire.

The Prohibition papers can generally be depended upon to attack the characters of Republican candidates for the presidency. We do not remember what roorbacks they fathered in an attempt to injure the reputation of Roosevelt, but neither Harrison nor McKinley escaped the most scurrilous attacks made by this same California Voice. The high Christian character of both of these distinguished men, did not protect them from untruthful, scandalous assertions, iterated and reiterated time and time again by this same paper.

The time has gone by, it is to be hoped, when voters can be influenced by baseless attacks upon the private character of candidates for office. The quietness of the present campaign is also due in part to the growing independence of voters who are generally informed by means of the newspapers, both as to candidates and issues, and do not need to be told by wordy orators how they should vote; neither are they caught as easily as in times past by the blare of trumpets and the beating of drums. Altogether it is an encouraging sign that noise, either vocal or instrumental, is not considered as essential to a political campaign as it once was.

The Guarantee of Bank Deposits—A Fallacious Scheme

This appears to be the most popular of Candidate Bryan's superficial theories of government and catches the fancy of a number of people who have not taken the trouble to trace the proposition out to its logical conclusion. To people unfamiliar with the banking business it might seem good evidence of the fallacy of the scheme to find that the recent Bankers' Convention in Denver condemned it unanimously. It is not sufficient rebuttal of such evidence to assert that bankers are not qualified to pass judgment upon a matter of such vital importance to their business, for this is equivalent to the assertion that those who follow a certain branch of business or profession can have no valuable opinion in regard to it; a position untenable and ridiculous. But opposition to the scheme is not confined to the bankers; it is opposed by men of affairs everywhere and by men who have a right to be recognized as possessing some right to be recognized as statesmen.

One of this class, the Hon. Geo. F. Edmunds, late United States Senator from Vermont and for many years a presidential possibilty, expressed himself very emphatically in an interview at Pasadena the other day as opposing the scheme on the ground that it is revolutionary and visionary. One of the best expositions of the fallacy of this latest child of Mr. Bryan's fertile fallacy factory is that given in a paper upon the subject by Mr. Morawitz, a prominent authority on finance. He calls attention, first, to two things that the depositor naturally desires to have insured, viz: the prompt payment of his checks in cash; and second, the ultimate payment of his account in the event of the bank's insolvency.

These are two very different propositions. Statistics show that the ultimate loss to depositors in national banks has been very small, about one-twentieth of one per cent. A scheme to tax all the banks of the country, upon the whole banking system, make the honestly conducted banks pay the losses caused by the dishonesty of officials conducting "wild cat" concerns, all for the purpose of insuring the payment of this infinitesimal loss, appears on its face and final analysis to be if not visionary, at least unnecessary.

But as to the insurance of immediate payment of depositors on demand. The aggregate deposits of the national banks of the country amount to five thousand million dollars, and the cash which the banks hold amounts to not more than one-seventh of this sum. There are individual banks in New York city having deposits amounting to over one hundred and fifty million dollars and a good many banks outside of that city with deposits of fifty millions. To draw fifty or one hundred million dollars from the reserves of the national banks of the country to pay off at once the depositors of one or two of these great banks if they should suspend payment, would force the suspension of nearly all the banks of the country and precipitate universal panic and disaster.

In order to make this insurance scheme effective the money which the banks would contribute to the insurance fund must either be locked up by the government (withdrawing an immense sum from circulation) or invested in securities, or redeposited with the banks. If locked up by the government, it would reduce the bank reserves by just that amount, crippling them proportionately. If invested in securities, when the need for the fund occurred, the securities would have to be sold, thus withdrawing money from the banks just at the time when they needed it most. If, on the other hand, the guarantee fund was redeposited in the banks, the only change in the situation would be that the banks would have the same reserves as they had before the money was withdrawn, but they would be subject to call for the repayment of this money out of their reserves in order to pay off depositors of other banks that fail. This would amount to a compulsory pooling of the banks, the sound banks being made subject on call to the depositors of unsound institutions. The effect of all this would be, that in good times the weak banks would be enabled to expand their credits beyond the danger point, but in times of stringency and threatened trouble the strong and conservative banks would be forced to contract their credits and refuse accommodations to their customers in order to save and build up their reserves. No guarantee fund or system of insuring bank depositors can possibly furnish a substitute for cash reserves. The plan would not increase these reserves by one dollar, and would weaken the strong banks more than it would strengthen the weak ones. As to the claim that the scheme would prevent panics by increasing the confidence of depositors, it would have just the contrary result, for the fallacy of the attempt at insurance against panics would become apparent to anyone who gave serious thought to the subject and the false sense of security would soon pass away. The American people cannot be fooled long at a time.

The thirty-fifth annual convention of the Western Christian Union, held at the Hotel Glendale, Glendale, California, from November 1 to 10, 1937, was a most successful one. Some may say it would interfere with personal liberty, that they have a right to drink and sell or treat with the death dealing stuff. Suppose a person was afflicted with smallpox, would it not be considered a menace to the health of the public if they were not isolated, and yet they might just as consistently say this interferes with my personal liberty "The principle of American liberty is the protection of American welfare," and yet some Prohibition towns will permit saloons and breweries to use walls of houses and fences to post bills advertising beer and liquor and many times pictures of semi-nude females holding a glass in a tempting manner to the eyes of the public. It is stated that there is over 12,000 licensed liquor joints in Chicago and 650 churches. Do you wonder there is an average of 425 per day in the county jail. The voters are to blame for this. Is it any better in our own city of Los Angeles.

Who is responsible for 2400 saloons in San Francisco and 125 churches. Vote the curse of liquor down. Curse of country and of town. Freeman when to the polls you go. Strike one mighty blow, vote it down.

RELICS OF PREHISTORIC ANIMALS
Prof. John C. Merriam, of the University of California, has had some excavations made in the brea beds between Sherman and Sawtelle, with the result of obtaining a large number of bones and skeletons of such prehistoric animals as the sabre-tooth tiger and giant sloth and monster wolves, as well as of the animals and birds of later date. The results of Prof. Merriam's observations are published in the October number of the Sunset Magazine, and they comprise a highly interesting and instructive article. It discloses the startling fact that ages ago the valley in which Los Angeles is situated was roamed over by animals of enormous size, including mammoths, elephants, sloths, bison and caribou, as well as by other animals of great ferocity and strength, of which the sabre-tooth tiger was the most formidable, and wolves of a size unparalleled by any now living. A great many bones of these giant wolves have been found. Of the discovery of the remains of sabre-tooth tigers Prof. Merriam says:

THE SABRE-TOOTH TIGER.
Next to the large wolves the carnivorous animals most frequently discovered are the sabre-tooth tigers, of which this far excellent material of over twenty individuals has been found. Though fossil cats of this kind are known from nearly all parts of the world, and the type has been in existence for many geological periods, there has never before been found such a remarkable accumulation of their remains as occurs here. In all parts of the beds where collections have been made their bones are represented. At one locality eighteen complete skulls, and at least one complete skeleton, were found within an area of less than two square yards.

The total shipments of oranges from Central and North California is 3260 cars, more than 1400 cars less than were shipped from Redlands alone. Orange trees were planted in North California more than fifty years ago, but, for some reason, the industry never seemed to get on a strong, profitable basis. Central California, however, is increasing its plantings at a lively rate and promises to become a large factor in ten years more.

Our Flag
Ed News:
I was considerably impressed and somewhat stirred with patriotic thrills on a recent Sunday on the occasion of the presentation of a beautiful American Flag by the Ladies' Relief Corps, connected with Stanton Post G. A. R., to the First Universalist church of Los Angeles, Rev. C. E. Nash, D. D., pastor. The assembly room of Cummoek hall, 1500 Figueroa street, Los Angeles, where this congregation holds its services, was decorated with flags, and many of the congregation wore patriotic badges. Dr. C. E. Case, commander of Stanton Post, the president of the Relief Corps, and other officers, sat with the pastor and the whole service was of a patriotic character. Commander Case spoke of the flag, especially what it meant to one to whom it had become endeared by the sacrifices he had made to preserve it; and of how it pained the heart of such a patriot to see the flag desecrated and so little respect shown to it by the ordinary class of people. He said the flag is not respected as it should be, largely, no doubt, through indolence and thoughtlessness, rather than because people mean to show disrespect for it. He instanced the flying the flag on the school houses required by the law of the state while the school is in session, and said the Normal school in Los Angeles displayed no flag at all for several days after its fall term began, and only then after it was learned that the G. A. R. proposed to take legal steps to have the law complied with. And when it was put up it was left up night and day, because, as the janitor said, it was too much trouble to climb the stairs twice a day to put up and take down the flag. The commander said that from this time on, the Post intended to use legal means if necessary to see that the flag received proper formal honor and respect.

I thought his criticisms were not at all improper, and would well apply to Glendale, where the flags on the Watson block, on my own office and on the High School have been whipt by the wind, washed by the rain and bleached by the sun, until they are mere haggard and hideous mockeries of our glorious banner. Our flag is the most beautiful national emblem in all the world, and it means the most. It is beautiful and we use it for its decorative effect, but we ought not to dishonor and desecrate it by leaving it to become a washed out, faded, offensive rag. This may not show hostility to the flag and what it signifies, but it at least shows a thoughtlessness and a carelessness that is not to the credit of those who claim to be a patriotic people. The flag on our schools should be raised every morning when the session begins and reverently taken down and folded away when it closes, and it would do no harm to have the flag saluted and the band play, or a song sung at its raising and lowering. Better fly no flag at all than not treat it with proper respect.

Dr. Nash responded to the presentation speech, told what our flag symbolizes and stands for, and why it was fitting to associate patriotism with religion, the flag with the church. In the past it had stood for war, for bloodshed, generally, if not always, in a just cause for human liberty and equal rights. Let us trust the necessity for bloodshed has about past away, and that henceforth it shall stand no less for sacrifices, for devotion, but more and more its blue for fidelity, its white for purity, its red for love, until all nations and lands shall be united under one banner, in a universal and fraternal federation of the world in peace. He said these were ideas for which the Universalist church especially stood, hence it was especially appropriate it should receive this flag. "My country 'tis of thee," was a fitting close of the occasion. **EDGAR A. LEAVITT.**

POLICE DOGS IN HOLLAND.
That a policeman on night duty in a great city would be more respected by criminals if accompanied by a powerful and sagacious dog is a reasonable supposition; yet it remained for little Belgium to carry out this innovation in Antwerp, Ghent, Mons, Bruges and Ostend—an innovation which has now spread to other parts of Europe. As time went on and the number of dogs was increased, it became apparent that night crimes, even in the worst quarters of Ghent, almost disappeared. Cunning ruffians had often contrived to outwit the soldierly patrol, but these big, swift, silent-footed and sagacious dogs inspired terror in the most desperate evil-doers. The night service of the city is now made by about one hundred and twenty guards, assisted by fifty or sixty perfectly trained dog police. The city is divided into a hundred and twenty sections, so arranged that man and dog can always count on their neighbors' support if occasion should arise. Careful check is kept upon the men, that they visit every yard of their beat; but even the dogs will keep them up to it. If the night guards are used by day they get extra pay,

and a corresponding number of hours is taken from their next night watch. Relating the achievements of his dogs, M. Van Wesemael told of an arrest by one of them, named Beer. One night Beer came upon five drunken fellows wrecking a saloon on the outskirts of the city. The men were making a great uproar, and a resolute resistance to the law was feared. The fine animal sprang forward without a sound. When the patrol reached the spot four of the men had fled, and Beer was clutching the fifth by the leg. The moment the officer appeared Beer gave up his prisoner and was off like the wind on the trail of the fugitives. The patrol followed with his prisoner, guided by a series of short sharp barks. Presently he came upon the other four, who had turned at bay and were trying to keep the dauntless Beer from tearing them to pieces. Thoroughly frightened, sobered even the men offered to give themselves up, if Beer were controlled. This was promptly done, and the procession started for the central police bureau, with the victorious Beer, now at liberty to give vent to his joy, barking and racing round his prisoners exactly as if they had been a flock of sheep.

Tom is another dog no less alert. One winter night in a quiet street near the docks he met a man with a sack. Tom was alone at the moment, but as both sack and man seemed queer to him he gave the alarm, repudiating all attempts at anxious conciliation. In a minute or two Tom's colleague came along and asked about the sack. The explanation being somewhat lame, the man was invited to the police bureau. There he confessed that he had stolen a piece of beef and several dozen eggs from a small store on the outskirts of the city.

Tippo is another terror to burglars. He is a record-racer of great weight and strength, long and lean of tang, a fast swimmer, a high jumper, and so daring that not even point blank revolver shots will turn him from his duty. He has been wounded more than once and has narrowly escaped death.—Our Dumb Animals.

JENNY LIND AND GRISL.
We have recently read a beautiful incident. Jenny Lind and Grisl were rivals for popular favor in London. Both were invited to sing the same night at a Court concert. Jenny Lind, being the younger, sang first, and was so disturbed by the fierce, scornful look of Grisl that she was at the point of failure, when suddenly an inspiration came to her. The accompanist was striking his final chords. She asked him to rise, and took the vacant seat. Her fingers wandered over the keys in a loving prelude, and then she sang a little prayer which she had loved as a child. She hadn't sung it for years. As she sang she was no longer in the presence of royalty, but singing to loving friends in her fatherland. Softly at first the plaintive notes floated on the air, swelling louder and richer every moment. The singer seemed to throw her whole soul into that weird, thrilling, plaintive "prayer." Gradually the song died away and ended in a sob. There was silence, the silence of admiring wonder. The audience sat spellbound. Jenny Lind lifted her sweet eyes to look into the scornful face that had so disconcerted her. There was no fierce expression now, instead a tear-drenched glinted on the long, black lashes, and after a moment, with the impulsiveness of a child of the tropics, Grisl crossed to Jenny Lind's side, placed her arm about her and kissed her, utterly regardless of the audience.—Our Dumb Animals.

TAXES—CITY AND COUNTY.

At the tax collector's office in Los Angeles the county taxes are coming in rather more slowly than usual. For the benefit of comparatively newcomers it may be stated that taxes may be paid to the county in two installments, the first half becoming delinquent on the last Monday in November, when if unpaid, 15 per cent. is added. The latter half becomes delinquent on the last Monday in April. The Glendale city taxes are now due and the whole amount must be paid in one payment which is not delinquent until Dec. 31st. Tax Collector Doyle reports payments coming in about as they did last year.

RECEPTION AND BALL.

Grand Opening of the New Odd Fellows' Hall in the Hurt Building.

On Friday night, October 23rd, local Odd Fellows and their ever-ready helpers, the Rebeccas, jubilantly celebrated the advent of the opening of their very handsome new hall. About two hundred were present to offer or receive congratulations and incidentally to test the fine floor of eastern maple. A few tested its shining surface in an unexpected manner, but no one was hurt and everybody was delighted with the good time offered.

Claiming first attention, following reception of guests, was the display, or exhibit, of valuable oil-paintings lent for the occasion through the courtesy of the artist, Mr. Eugene Frank of Second street. A small fortune was represented in the fourteen pictures shown, with one of which "The Buffaloes," the prize of the collection, a handsome medal which it had won was exhibited. "Shore-bound Waves" and "Landscape Near Munich" received flattering attention as indeed, did the entire collection.

For the dancing extra fine and up-to-date dance numbers were rendered by the Schoenman and Blanchard orchestra of Los Angeles. An attractive corner was that arranged with table handsomely decorated with old English ivy and the red glow of geraniums, where, under the supervision of Miss Ida M. Waite, assisted by Noble Grand and Past Grand of Carnation Lodge, served very satisfying and delicious punch to the Odd Fellows and fruitade to the ladies, and it all came from the same bowl! Dr. Chase as chairman of the affair was ably assisted by officers and interested Odd Fellows and to him is very largely due the pronounced success of the entire evening. Many more would have been present but tickets were disposed of much earlier than was expected, and as it was, the hall was almost uncomfortably filled. All were generous in admiration and praise of the fine new quarters supplied as it is with all necessary up-to-date conveniences, and finished with a decorative scheme that is a pleasure and a delight to admirers of soft tones properly combined to blend with the woods employed in the finish of the spacious rooms.

RESOLUTION NO. 197.

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE ORDERING CERTAIN STREET WORK TO BE DONE ON ORANGE STREET.

The Board of Trustees of the City of Glendale do resolve as follows:

Section 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Glendale, State of California, hereby orders the same to be done according to the specifications and plans adopted for the said work, and under the direction and to the satisfaction of the superintendent of streets of said City, to-wit:

First. That that portion of Orange street from the South line of Fourth street to the North line of Fifth street and from the South line of Fifth street to the North line of Sixth street, (excepting such portions of said street as are required by law to be kept in order or repair by any person or company having railroad tracks thereon), be graded and oiled in accordance with the plans and profiles on file in the office of the City Engineer and in accordance with Specifications for the construction of graded and oiled streets on file in the office of the City Clerk of the City of Glendale, said Specifications being numbered 7, except, however, that instead of following that portion of said Specifications contained on page 2, subdivision 4, of said Specifications, which portion reads as follows, "When the surface of the street has been thoroughly cultivated and prepared the first application of oil, consisting of one and one-fourth (1 1/4) gallons of oil per square yard of surface, shall be applied. This coat of oil shall then be thoroughly cultivated and incorporated into the four inches of loose surface soil. After a lapse of not less than twenty-four hours a second application of oil, consisting of three-fourths (3/4) of one gallon per square yard of surface, shall be applied. The second coat of oil shall be lightly harrowed into the surface in such a way as to retain this coat of oil upon the top for a wearing surface," there shall be followed in lieu of said above quoted portions of said Specifications No. 7, the following:

"When the surface of the street has been thoroughly cultivated and prepared, the first application of oil, consisting of one and one-fourth (1 1/4) gallons of oil per square yard of surface, shall be applied. This coat of oil shall then be thoroughly cultivated and incorporated into the four inches of loose surface soil and said street is to be kept thoroughly moistened at all times during the application of oil herein mentioned. After a lapse of not less than twenty-four hours a second application of oil, consisting of one and one-fourth (1 1/4) gallons of oil per square yard of surface covered, shall be applied and thoroughly cultivated and incorporated into the four inches of loose surface soil and, likewise kept moistened as in first application. After the second application of oil is applied, the street shall be rolled with a smooth roller weighing not less than five (5) tons, until the surface of the street is uniformly smooth and hard. After said street is so rolled a third application of one-half (1/2) gallon of oil per square yard of surface covered, containing not less than 80 per cent. of asphaltum, shall be applied to said street, as a surface covering, and a sufficient amount of clean sharp sand spread over the surface of the roadway sufficient to cover and absorb said oil, and then the roadway shall be thoroughly dragged, sprinkled, rolled and compacted."

Second. That a cement curb be constructed along each side of the roadway of said Orange street from the South line of Fourth street to the North line of Fifth street and from the South line of Fifth street to the North line of Sixth street in accordance with the Specifications for the construction of cement curbs on file in the office of the City Clerk of

the City of Glendale, said Specifications being numbered 2, except that the top of the street face of all curbs shall be placed ten (10) feet from the property line instead of the distance from the property line provided for in said Specifications Number 2.

Third. That a cement sidewalk, five feet in width, be constructed along each side of said Orange street from the South line of Fourth street to the North line of Fifth street and from the North line of Fifth street to the North line of Sixth street, said sidewalk to be constructed according to the Specifications for cement sidewalks on file in the office of the City Clerk of the City of Glendale, said Specifications being numbered 1.

Section 2. That the Board of Trustees of the City of Glendale finds upon estimates directed to be furnished and furnished by the City Engineer that the total cost of said improvement will be greater than fifty cents per front foot along each line of said street, including the cost of intersections, and it is determined, in pursuance of an Act of the Legislature of the State of California, approved February 2, 1893, as amended by an Act of the Legislature amending said last named Act, which amending Act became a law March 2, 1899, that bonds shall be issued to represent the cost of said improvement. Said bonds shall be serial, extending over a period of ten years from their date, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date, until the whole are paid, and said bonds shall bear interest at the rate of seven per cent. per annum on all sums unpaid payable semi-annually by coupon, on the second days of January and July, respectively, of each year, until the whole of said principal and interest are paid.

Section 3. THE GLENDALE NEWS, a weekly newspaper of general circulation, published and circulated in said City of Glendale, is hereby designated as the newspaper in which this Resolution and Notice of said street work inviting sealed proposals, shall be published in the manner and form and by the persons required by law.

Section 4. The City Clerk of the City of Glendale is hereby directed to post conspicuously for five days on or near the Chamber door of the Board of Trustees, in the manner and form required by law, a notice with specifications inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated for that purpose, as aforesaid, in the manner and in the form required by law, a Notice of said work inviting sealed proposals or bids for doing said work and referring to the specifications posted or on file. Said Notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent. of the aggregate of the proposals; said City Clerk is also hereby directed to publish this Resolution for two days in the manner required by law, in said newspaper designated for that purpose, as aforesaid.

ORDINANCE NO. 32.

AN ORDINANCE REGULATING STREET WORK BY PRIVATE CONTRACT WITHIN THE CITY OF GLENDALE AND FIXING A PENALTY FOR THE VIOLATION THEREOF AND REPEALING ORDINANCE NO. 38 AND ANY OTHER ORDINANCE IN CONFLICT WITH OR VIOLATION HEREOF.

The Board of Trustees of the City of Glendale do ordain as follows:

Section 1. Every person before commencing the construction of any sidewalk, curb, gutter, cross-walk, or the grading of any street, or any other street work on any public street, alley or public place within the City of Glendale, except where said work is to be done under a public contract for the same, shall make application to the Board of Trustees of said City for a permit to do such work, and it shall be unlawful for any person to do any such street work without such permit first having been obtained from the Board of Trustees of the City of Glendale so to do. The application for said permit shall be made on a printed form to be supplied by the City Clerk of the City of Glendale and it shall specify the place where the improvement is to be made, the nature and extent of the improvement, the time within which said work shall be commenced and when the same shall be completed and finished, and shall contain a statement that said permit is asked for and that said work therein described will be done subject to the terms and provisions of this ordinance.

All such work, upon permission being granted therefor, must in all cases be done under the direction and to the satisfaction of the Superintendent of Streets within the time specified in the application in accordance with the City's specifications for work of that class, and on lines and grades to be given by the City Engineer.

If the work does not, in the judgment of the Street Superintendent, comply with the specifications therefor and with the terms of this Ordinance, the Street Superintendent shall notify the person to whom the permit was granted of the defect or failure of performance of said work, and shall require such person within five days of

such notice to proceed to remedy such defect. Such notice shall be written, or printed and shall be served personally or by leaving it at the residence or place of business of such person, or if such person cannot be found, and if such place of business or place of residence is unknown or is outside of the city, said notice may be served by depositing it in the Postoffice, postage prepaid, addressed to the person holding such permit at such place of business or residence, if known, or if unknown, in the City of Glendale.

If such notice is not complied with the Street Superintendent shall thereupon report such non-compliance to the Board of Trustees of said City and thereafter said Board shall not grant any permit to such person to do street work by private contract within the City of Glendale until he has made full compliance with the terms of said notice. And if such failure or defect in performance relates to the construction of cement walks or cement curbs the Board of Trustees may order the same taken up and removed from the street at the expense of the holder of such permit, which expense all applicants by making application hereunder hereby agree to pay.

Section 2. Every applicant, at the time of filing his application and before the same is presented to the Board of Trustees or considered by the said Board, shall deposit with the City Clerk the following fees:

For Engineer's fees for each lineal foot of sidewalk or curb proposed to be constructed:

If not exceeding 500 feet, per lineal foot, 4 cents.

If over 500 feet and not exceeding 1000 feet, per lineal foot, 3 1/2 cents.

If over 1000 feet, 3 cents per lineal foot.

If an intersection corner alone is asked for \$2.00 per corner shall be paid.

Where a sidewalk and curb are to be constructed at the same time and place only one charge for engineering work shall be made unless such sidewalk and curb are required by the person constructing the same to be laid out independently by separate engineering work done at different times.

No engineer other than the City Engineer shall be permitted to set stakes or give the lines and grades for said improvements.

It shall be the duty of the City Engineer upon the payment to him of said fees, as aforesaid, to give the lines and grades for the performance of such work and upon the completion of such work to inspect the same and, if found to be on line and grade, to issue a certificate in duplicate of acceptance of the same as to line and grade and give one of such certificates to the holder of said permit and file one with the Street Superintendent.

If application be made for a permit for grading or any street work other than for the construction of a cement sidewalk or cement curb, the applicant shall, if such application be granted, before commencing work thereunder, deposit with the City Clerk a sum of money sufficient to pay the City Engineer for the engineering work that will be required in the performance of such street work, which amount shall be fixed by the Board of Trustees at the time of granting such permit, and such permit shall not go into effect or be issued until the payment of such fees.

For inspection fees:

Fees at the same rate as fixed above for the City Engineer shall be deposited with the City Clerk in the same manner and at the same time as the fees for the City Engineer are herein required to be deposited, to pay the cost to the City for the inspection of said work and for the issuance of the final certificate of acceptance thereof by the Street Superintendent; and the City Clerk, upon the issuance of such permit, shall pay into the general fund of the City Treasury the amount of such fees for inspection and shall take the City Treasurer's receipt therefor.

It shall be the duty of the Street Superintendent to inspect all street work done by private contract under the terms of this Ordinance and report to the Board of Trustees any neglect or failure to comply with the terms of this Ordinance, and the permit granted in accordance therewith for the performance of such work and to notify the holder of such permit of any failure or neglect of performance in the manner above specified.

Upon completion of the work to be done under any such permit it shall be the duty of the Street Superintendent to make a final inspection thereof and, if the same is found to be in accordance with the specifications for the same and in compliance with the terms of this Ordinance, and if a certificate of the City Engineer has been filed with him showing the same to be on line and grade, he shall issue a final certificate in duplicate thereof, one of which certificates shall be delivered to the holder of such permit and the other placed on file in the office of the Street Superintendent.

The Street Superintendent and the City Engineer shall file with the City Clerk, bills showing the amount due for inspection of work and Engineering services. Inspection to be paid for at the rate of \$3.00 per day of eight hours each and Engineering at the rate of \$15.00 per day of eight hours each, and if there be any balance left from the deposit after said engineering and inspection fees are paid, the balance shall revert to the party putting up the deposit.

Section 3. It shall be unlawful for any person to do any street work in the City of Glendale without first obtaining the lines and grades therefor from the City Engineer of said City, or to do the same except at the place and on the line and grade given therefor by the City Engineer.

Section 4. It shall be unlawful for any person doing any street work within the City of Glendale for which a permit has been granted under the terms of this Ordinance, to fail, neglect or refuse to perform the same according to the directions of the Street Superintendent and in accordance with the Specifications adopted by the city for the class of work to be performed under such permit.

Section 5. No permit to do any street improvement shall be granted until the grade of said street shall have been first officially established and no permit to do any grading by private contract shall be granted ex-

cept for the full width of the street, and if the permit be for the construction of a cement walk and curb only, the permit holder shall be required to grade and smooth the parking or space between the outer line of the walk and the curb; and if the permit be for the construction of a curb alone, then the permit holder must grade and level the entire space between the property line and the curb line.

Section 6. Permits shall in all cases be applied for by or on behalf of the person, firm or corporation, who is to actually perform the street work for which a permit is asked for, and permits issued under the terms of this Ordinance shall not be transferable or assignable except by permission of the Board of Trustees being first obtained so to do; and it shall be unlawful for any person to do any street work under a permit granted to another person unless such permit has been first properly transferred or assigned in accordance herewith to the person doing such street work.

Section 7. The Board of Trustees may in all cases, attach such further conditions to the granting of any permit under this Ordinance as may, in their judgment, seem best or necessary to secure the proper performance of such street work or to protect the public interests in connection therewith. The Board of Trustees expressly reserves the right and privilege of refusing to grant a permit applied for hereunder whenever in their judgment, they deem it to be the best interests of the public so to do.

Section 8. Any person who shall violate any of the provisions of this Ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not exceeding \$300.00, or by imprisonment in the County Jail of the County of Los Angeles for a term not exceeding three months, or by both such fine and imprisonment.

Section 9. That certain Ordinance entitled "An Ordinance Regulating Street Work by Private Contract within the City of Glendale and fixing the Penalty for the Violation Thereof," adopted February 6th, 1907, and being Ordinance No. 38, together with any other Ordinance in conflict with, or in violation hereof, is hereby expressly repealed.

Section 10. The City Clerk shall certify to the passage of this Ordinance and cause the same to be published once in the Glendale News, a weekly newspaper of general circulation, published and circulated in said City of Glendale, and thereupon and thereafter the same shall be in full force and effect.
